

Create from Scratch

Once you're logged in to VRWARE ASSEMBLR desktop app, you will see the home page.

To create from blank, head to "**Start New Project**" section and choose "**Create Your Creation**". Don't forget to enter the title of your project. Then, click "**Create**".

After that, you will see our **all-in-one Editor** that's really easy to use, even for beginners.

You can make use of the assets available like **2D & 3D objects, images, texts, and audio**—which you can drag and drop to your project.
